逐步计划
是否可得?
是
每一步都有执行计划
$r_k = \alpha_1 c_k + \alpha_2 s_k + \alpha_3 d_k$
否
中间某步计划缺失
$r_k = (\alpha_1 c + \alpha_2 s + \alpha_3 d)/\ell$
择一
参数更新
$A_k \leftarrow A_k + x_t x_t^\top$
$b_k \leftarrow b_k + r_k x_t$
$n_k \leftarrow n_k + 1$
规则参数
r_1 (A_1, b_1, n_1)
r_k (A_k, b_k, n_k)
... ...
r_n (A_n, b_n, n_n)
